

NLP-Practitioner Intensive «Foundations of NLP from Originator»

May 30 – June 10, 2011. Odessa, Ukraine

“A house without a solid foundation is weak. This axiom is accepted by everyone. NLP since its creation has gone far ahead in its development. This contains both a great opportunity and a great danger. If you do not know why and how NLP was created, if you don't know its fundamentals and basic forms, then all those skills and techniques that you use now are weak. This is what I see in many masters and trainers of NLP around the world. Everything starts with the basics, and I'm the only one who can provide it now. I invite you to the world of NLP, where everything has its meaning and gives incredible results. Just imagine your opportunities!”

James Tripp about Frank Pucelik:

"Frank impressed me greatly in doing so with creativity, humour and elegance rather than just firing off the standard blunt and obtuse challenges.

As you no doubt gather, I was greatly impressed by the content of this workshop, but the reason I write this review now is because I now appreciate it even more having been living with the learning for nearly a month - the material has made a real difference to me and those around me (clients, friends, family, business partners). Such a huge difference that I have to rate this as one of the most valuable trainings I have been on.

But as great as the content, there was something even more magical - Frank!

Frank, totally blew my socks off - a master communicator and story teller of the highest order!

Absolute finesse!" Here you can find the original article

FAQ

How did we prepare to this training?

We selected information and tested skills very carefully. Many of the topics that became in Russian-speaking NLP-world "sacred cows", have been ruthlessly expunged from the course by Frank Pucelik. We can say that ideologically this course is the brainchild of Mr. Pucelik.

Why doesn't Frank Pucelik conduct this training by himself?

1. The training was created by three trainers: Frank Pucelik and two his best students Lyudmila Chernenko and Nikolai Vovchenko. Despite their youth, among their student there are already several hundred Certified NLP-Practitioners
2. The training program, which was approved by Mr. Pucelik gives the whole range of knowledge that NLP-Practitioner Certificate presupposes. However, there are topics which Frank Pucelik is ready to "pass on to" other trainers, who may want and know how to do it well
3. During the exercises "language" factor plays a great role. On the recommendation of Mr. Pucelik these should be delivered by Russian-speaking trainers
4. We want to show you different styles in NLP training
5. We want to pay attention to each participant, so in addition to Mr. Pucelik two trainers and five assistants will provide their support

How did it work last time?

Frank Pucelik conducted NLP-Practitioner in Odessa, on June 6 – 17, 2009 (and we do not know when we will conduct NLP-Practitioner the next, and how much Mr. Pucelik will be involved). The last time the training gathered 30 people. [Here you can find photographs of that event](#)

What opportunities does this training give?

Partly it depends on your goals. We are likely to guarantee that this training will make it easier and you will also find completely new and exciting goals. From our side we can offer you the development in such areas as: NLP (master, trainer), coaching, negotiation, personal and corporate effectiveness.

We are currently preparing the answers to other frequently asked questions. You can send a unique question to any contacts listed on our web-site
